CHESAPEAKE INLET.—From a correspondent of the Washington *Dispatch*, we learn that the battery on Beacon Island is nearly completed. The battery commands the Inlet. Three companies are now stationed there. The Washington Grays, Capt. Sparrow; the Tar River Boys, from Pitt, Capt. Johnson; and a company from Washington county, commanded by Capt. Gilliam. Brave men with brave commanders.

PRIVATEER CAPTURED.—Intelligence from Charleston reports the capture of the privateer *Savannah* by a blockading vessel. She had been sent to New York.

One of our Charleston exchanges says that a Louisianian killed Col. Waldrop. The Louisianian Regiment did not reach Bethel until some hours after the fight. "Honor to whom honor is due," is all we North Carolinians ask.

The Latest Intelligence from Harper's Ferry—Movements of Federal Troops in that Direction.

A military gentleman from Washington, who is supposed, from his position, to be in close connection with Government officials and movements, passed through the city last night en route to the East. From him we learned that everything indicated an immediate attack on Harper's Ferry, and the magnitude of the movement would almost preclude the possibility of its failure. No less than four columns combining an aggregate of 300,000 men are in actual motion with a view of a rapid convergence near the Ferry, previous to a concentrated attack on that point. One column, that of Col. Stone, left Washington in the direction of Leesburg, it was thought on the Chesapeake and Ohio Canal.

This company is supported by strong detachments of several regiments said to have gone into Montgomery county, towards Rockville, to intercept anticipated Confederate movements upon the rear of Washington.

A second column, General Patterson's division, under the command of Brigadier General Thomas, are moving down from Chambersburg, through Greencastle, towards the Ferry. They are expected to take the Maryland heights opposite the Ferry, which are defended by a battalion of Kentuckians, armed with two exposed brass pieces, but it was supposed that rifle cannon were strewn pretty thickly among the bushes. The column of Gen. Thomas is supported by 600 cavalry and a park of artillery.

The third column, under the command of Gen. Patterson, is moving from Harpersburg, and will cross the Potomac by ford, a few miles above the Ferry, or at Shepherdstown or Williamsport.

This column numbers between 10,000 and 15,000 men including the Pennsylvania volunteers, Gov. Sprague's Rhode Island regiment, a battery and a company of cavalry.

Still another column is approaching the rear of Harper's Ferry, by the railroad track, but their advance, it was understood by the government, was being much impeded by the destruction of the bridges between Cumberland and the Ferry. This column is under the command of Brig. Gen. Morris of Indiana. It contains the first Indiana regiment and the four regiments of Ohio volunteers.

It is thought Gen. McClellan is not with the army in person, as his duties in the West would seem to require his presence there. It was currently reported at Washington and believed among military men, that Gen. Johnson, is in command at the Ferry, and would evacuate the place rather than risk a defense with such odds so rapidly concentrating, with the evident purpose of cutting off all line of retreat.

There were also speculations regarding the advance of still another column from the direction of the Relay House, headed by Gen. Caldwell, the body to consist of four regiments of troops occupying camps in the vicinity of Baltimore, and whose plans would be supplied by other regiments. Of this last movement nothing seemed to be definitely known. But it will appear evident from the foregoing that some decisive news may be expected from Harper's Ferry within the next few days.

The government has been greatly puzzled with the conflicting accounts from that point, and for that reason, to ensure success, if possible, an overwhelming force is being thrown forward against that place. The latest calculation shows ten thousand troops there, and their natural position, it is estimated, will give them the advantage of ten times that number against them. In the event of a fight, the battle will be a most bloody one.

BRITISH VESSELS.—It appears that a second British vessel has gone into Beaufort Harbor. Doubts, not altogether groundless exist, as to their real character. In both cases, they came from Halifax, Nova Scotia, via Boston, and both want a load of naval stores. Naval stores are contraband of war, and the Confederate Government has prohibited their shipment. It is believed to be a Yankee trick, and a ruse by which the Yankees may obtain naval stores. The matter should be carefully investigated before those vessels are loaded. If the naval stores are really designed for the British government or people, let them have them, but let our enemies have no part. —*Standard*

THE UTLEY GUN.—We learn that Mr. Grey Utley has been ordered to Raleigh with his model breechloading cannon, for the purpose of having it tested. This is a North Carolina invention, was patented some two years ago, and is highly spoken of by military men.

The Utley Gun is simple in its construction, and can be safely fired fifteen times per minute. The inventor is anxious to have a six-pounder cast by the State, should it be approved by the military Board, and offers the privilege to the State of having two batteries cast free of cost to reimburse itself for the experiment. It is especially adapted as a rifle cannon. Our State should lose no time in testing this gun, as it will, if the opinion of the inventor can be relied upon, prove a terror to our enemies.

Mr. Utley can be found at Burch's Hotel, where he will take pleasure in showing his gun to all who wish to see it. —*Register*.

The harvest is progressing finely in this section of the State. Wheat and oats never were better.

Stephen A. Douglas.

The late Stephen Arnold Douglas was born in Brandon, Rutland county, Vermont, on the 23d of April, 1813. He learned the trade of a cabinet maker at Middlebury, in his native State, and continued for a year in that business, but was obliged to abandon it on account of his health. From Vermont he removed to Canandigua, New York, where he pursued the study of the law until his removal to Cleveland, Ohio, in 1831. From Cleveland he removed still farther West, and finally settled in Jacksonville, Illinois. He obtained employment at first as clerk to an auctioneer, and afterwards taught a school, still devoting his leisure to the study of law. He was admitted to the bar in 1834, and rose rapidly in his profession, being elected Attorney General of the State before he was twenty-two years of age. In 1835 he was elected a member of the House of Representatives, and at the expiration of his term was appointed by President Van Buren, in 1837, Register of the land office at Springfield, Illinois. In 1840 he was elected Secretary of State of Illinois, and the following year Judge of the Supreme Court. Notwithstanding his robust appearance, he seems never to have possessed a strong physical organization, and resigned his Judgeship, after occupying it for two years, in consequence of ill health. From this period his first prominence in national politics may be said to date. He was again elected to the United States House of Representatives in 1843, and continued a member of the lower House for four years, where he was one of the most active members, able speaker and ardent Democrat of that body. He was an advocate of "forty-four forty or fight" on the Oregon question, and was a firm supporter of the Mexican war. One of his best speeches was on the question of refunding to Gen. Jackson the fine which he was obliged to pay in New Orleans. In December, 1847, he was elected to the United States Senate—his course there is fresh in the public mind.

Kentucky Invaded.

COLUMBUS, June 12.—The City of *Alton* landed, at 11½ o'clock a. m., filled with troops and 12 pieces of Artillery, and took down our flag and trampled it under foot—spitting upon it. They warned us that if we uttered secession sentiments, we would rue it in three days. The citizens could not resist, but bid defiance. The commander asked if there was one man who wanted it down. The answer was, no. Columbus is all right for the South.

The Cowards run from the Palmetto to Boys.

RICHMOND, June 18, 1861.—Col. Gregg with a reconnoitering party, consisting of a part of the First Regiment South Carolina Volunteers, with two guns, started on Sunday morning for Great Falls, on the Potomac.

Returning in the evening, on arriving at Vienna Station, on the London and Hampshire Road, met a train bearing the Fifth Ohio Regiment, under command of Col. Cook when an engagement occurred.

At the first fire six cars were detached. The Ohioans fled leaving six dead and a number wounded.

DISTILLATION OF GRAIN.—We have no hesitation in endorsing the opinion that no more grain should be used for the manufacture of whiskey. All of it should be kept for the sustenance of man and beast. Whiskey is a curse to every body. —*S. Home Journal*.

HOME MADE WRITING PAPER.—The Mills of Messrs. Oaks & Wiswall, Lincoln, N. C., are turning out the various kinds of writing paper—"Commercial Note," "Letter," "Cap"—and "Flat Cap"—ruled and unruled, blue and white. We have a specimen of their "Cap," which is very good. —*Salisbury Watchmen*.

BRIGADIER-GENERAL D. H. HILL.—It gives us pleasure to record the following appointment by Gov. Ellis, by and with the consent of the Military Board: Col. D. H. Hill, 1st, Regiment of North Carolina Volunteers to be Brigadier General of 1st, Brigade North Carolina Volunteers, for distinguished services at the battle at Bethel Church Virginia, to take rank from June 10th 1861. —*State Journal*.

Among the "Appointments by the President," (Lincoln,) we find the following:

"John H. Peters of South Carolina, to be Consul of the United State at Tunis."

This is a specimen of Lincoln's appointments. This man Peters is not of South Carolina, but was once of Georgia having resided some time in the Georgia State Penitentiary. He is known here as a most infamous scoundrel. Among other things about him we are informed that he was here after his escape from Georgia "College of Industry" concealed in the house of a free mulatto woman for all the days for six months, but used to prowl about at night. Who don't recollect "Judge Peters?" once before. We hope to see him hung yet. —*Wilmington Journal*.

For the Times.
Tracts for the Soldiers.

I have spent most of the time for several weeks among the soldiers, to whom I gave about 100,000 pages of tracts, and had conversations on personal religion with over 2,300 in their camps and hospitals. I find many of them pious, daily reading the Bible and praying to God. But, by far, the largest portion are irreligious. In three Companies, of about 300 men, only seven were professors of religion, and there were but few Bibles and Testaments among them. Several benevolent friends have given me from \$25 to 50 cents each, to supply the soldiers with Bibles and Testaments, but I have almost exhausted my supply, besides what I could get from other accessible sources.

From a full supply of suitable religious books I am striving to put a message of gospel truth in the hands of every man. In camp life they have many hours for reading. The dangers to which they are ever exposed, incline them to solemn reflection. A lady requested me to give for her all I had of the excellent tract, "Come to Jesus," \$10.76 worth. A copy of which I gave to a soldier one Sunday Morning, on which I marked the 91st Psalm. The Sunday following, he wished me to sit with him in his tent. He stated that the tract caused him to get his Bible and read the Psalm. On opening to it he was surprised to find a piece of paper pinned to this Psalm, upon which was written in beautiful hand by his sister Emma, these lines:—

When from home receding,
And from hearts that ache to bleeding,
Think of those behind who love thee;
Think how long the night will be
To the eyes that weep for thee.
"God bless thee and keep thee."

The melting tenderness before God in that tent cannot be expressed. Some of his mates were religious and ready to encourage him in seeking salvation.

All are anxious to get tracts, as they are brief and pointed and easy to carry to read. Being separated from wives, mothers, sisters and other loved ones, they long for, and heartily respond to expressions of sympathy, affection and christian influences. I find them to be chiefly our intelligent young men, the hope of the church and country; and no efforts or means should be spared to supply them with what is interesting, instructive and saving, that they be not forever ruined by the perilous temptations and dangers threatening them every moment.

I am nearly out of tracts, and the way is closed up so that the Tract Society cannot send them to me, for which the officers express deep regret, and promise to send when the way is open, such publications as may be desired to supply the annuities to Life Directors and Life Members. And I would here state, for information, if we can get nothing more from this Society, it has paid to Colporteur's salaries in North Carolina, besides large grants of books and tracts, about \$11,000 more than we have given the Society from this State.

Although we are cut off from this Society and the North, yet the Tract cause can and must go on, and I am appropriating all funds I can get to reprinting the Tracts here for the soldiers, at our Institution for the Deaf and Dumb and the Blind. I have commenced, and shall continue this work under the approval and counsel of all the Pastors of this City, each of whom have read the Tracts selected and gave the first donations. I will have 95,000 pages ready very soon; and every dollar given will enable me to re-print 1500 pages. Rev. F. Fitzgerald, Chaplain of the second Regiment, was the first to secure five dollars' worth, or 7,500 pages. Rev. J. N. Andrews, Chaplain of the third Regiment has just ordered a supply. There are several Colporteurs in great want of Tracts.

It is proposed that I have the Tract "Come to Jesus" and the cheap Testament re-printed, which I can do as soon as the funds are given. Several thousand copies of each can be printed here for \$1,000, about as cheap as at the North. Neither of these are printed in the South, and we must have them for our soldiers. I propose to re-print the New Testament, under the sanction of the N. C. Bible Society. Let friends respond immediately, and this work shall be done. A lady writes, "Enclosed you will find a check for \$150—We were very glad to hear that some way is found out to re-print the Tracts for the poor soldiers. We are willing to do what we can for their never-dying souls." May God speedily raise up many such friends to aid in supplying the soldiers with the

gospel to read, by which their chaplains will be helped in getting them to secure the peace of God in their souls, as well as the peace of their country, so that if they live they may be God's children, and if they die they may be God's saints.

Yours truly, W. J. W. CROWDER,
Tract Agent for N. C.

THE "UNION" GUN OVERBOARD.—A monster gun called the "Union," cast at Pittsburg, and weighing upwards of fifty thousand pounds, fell overboard whilst being shipped at Baltimore for Fortress Monroe last Friday. The water where the gun fell in was about six feet deep, but there was under it a soft mud, which was sounded to the depth of six more; and the gun that evening was about twelve feet below the surface of the water.

A late dispatch says the cannon has been raised and re-shipped.

A PAPER FOR THE CRISIS! THE TIMES, THE FAMILY NEWSPAPER FOR N. CAROLINA. A Large Eight-Page Weekly, Published in Greensboro, N. C. \$2.00 A YEAR. \$1 FOR SIX MONTHS.

THE TIMES enters upon its sixth volume the first week in January 1861, in a new dress of large and readable type. It shall be the untiring efforts of the publishers to make THE TIMES a Family Newspaper equal to the demands of the present crisis. THE TIMES is neither sectarian nor political; but by its freedom of thought, and independence of character, its columns shall be filled with *facts and spirit*; and will present and defend whatever policy will, in the opinion of its editors, best promote the interest of the people and develop and enrich the State. The editors of THE TIMES will pay special attention to the news department of the paper, and will report the proceedings of Congress, of the Legislature, of the various state Conventions, and whatever will be interesting to its readers in every section of the country. No labor will be spared to have the latest, the fullest and the most reliable news. The Domestic and Agricultural departments of THE TIMES will receive during the coming year more attention than heretofore. The Domestic economy, comfort and happiness, and the independent and honorable pursuit of culture, form the great wealth and peculiar characteristic of our free country, and specially so in North Carolina. THE TIMES will, therefore, be a welcome visitor to every country home, and to every industrious farmer. THE TIMES is presented to the people of North Carolina as a home paper, devoted to the development of home industry, in the confident hope that our people will be disposed in the national crisis to patronize home papers; to build up home interests, instead of enervating their substance and their energies among strangers. Give THE TIMES a trial, and then let it stand on its own merits. Address: JAMES W. ALDRIDGE, Greensboro, N. C. 65. Specimen numbers sent, on application.

THE N. C. JOURNAL OF EDUCATION.—The 4th volume of this journal commenced with the year 1861. It will be published monthly, at ONLY ONE DOLLAR PER YEAR, and each number will contain thirty-two pages of reading matter.

THE JOURNAL is neatly printed on good book paper, with some improvements, and efforts will be made to improve it in every respect, in proportion to the encouragement received from those to whom it is sent for support. It is the property and organ of the State Educational Association, and is under its control; and it is the aim and wish of the committee to whom the management of it is entrusted, to make it a valuable auxiliary in the cause of education.

THE JOURNAL is also designed to be a medium of communication between the General Superintendent of Common Schools and the school officers and teachers of the State. And, since the county boards of superintendents are beginning to act under the law allowing them to "subscribe for a copy of THE JOURNAL for each school district to their respective counties, more attention will be given to the special interests and wants of Common Schools. Teachers and other friends of education are earnestly requested to act as agents, and also to contribute articles suitable for its pages. TERMS: One Dollar per annum, invariably in advance; any one sending ten new subscribers, will be entitled to one copy gratis.

THE JOURNAL and THE TIMES, one year, for \$2.50. As a medium for ADVERTISEMENTS, the Journal is not surpassed by any publication in the State. In about one fourth of the counties it is sent to not less than three persons in each school district, not exceeding 12 miles square, which gives it a circulation equivalent to 3,000, or more, with a constant increase. For terms, &c., address, J. D. CAMPBELL, Greensboro, N. C.
